GUTHRIE, OKLAHOMA, WEDNESDAY, JULY 19, 1916.

TWO CENTS

NUMBER 9

## ALLIES ADVANCE ON ALL FRONTS, EAST AND WEST

RUSSIANS FORCE WAY  
ACROSS CARPATHIANS AND  
INVADE HUNGARY

GERMANS RETAKE PART  
OF DELVILLE WOOD

ITALIANS ON UPPER POSINA  
CAPTURE IMPORTANT AUSTRIAN POSITIONS TODAY

(By Associated Press)

French Progress at Verdun.

Paris, July 19.—The French progressed today near Verdun, on the Verdun front. Grenade fighting was announced to be in progress.

Germans Capture Part of Woods.

London, July 19.—The Germans have recaptured a portion of Delville Wood, and have obtained a new foothold on the outskirts of Longueval, it was announced today.

Russians Enter Hungary.

London, July 19.—The Russians have crossed the Carpathians, and have penetrated a day's march into Hungary, according to Petrograd dispatches. It is declared they now threaten the Austrian rear in the mountains.

The army of General Lethizky is again moving after an interval of quiet.

Italians Advance Steadily.

Rome, July 19.—Italians today made a new advance in upper Posina, where they captured important positions at Sormo Del Coston. Austrian attacks made in the Pasubio Sector were repulsed.

Paris, July 19.—Allied Aeroplanes burned part of the Bulgarian front in the region of Monastir. The statement of the Saloniki bombardment says:

A drive from the Saloniki front has been predicted for some time. There are some 130,000 Serbian troops on the front and several hundred soldiers. It is generally understood that the allies have 600,000 or more available for a campaign. Opposed to them are the Bulgarians with unknown numbers of Turks, Germans and Austrians.

Last Obstacle Removed.

With regard to the eastern front General Von Linssen's retirement across the Lipa is considered by the critics as removing the last serious obstacle to the advance of the Russians toward Lemberg.

There was little fresh news from either front Tuesday. General Haig was able to report substantial progress north of Civilliers while the Germans utilized the hill in making an attempt to regain lost ground at Bapaix and La Malsonette. Fighting in this region continues.

Galicia Towns Evacuated.

Reports from Rome say that retirement of the Teutonic cities on the Lipa has caused a panic in Galicia where towns are being evacuated.

In the vicinity of Riga the Russians are vigorously on the offensive against Field Marshal von Hindenburg's army, but all their attacks have been repulsed with heavy losses, according to Berlin.

Fresh Italian Victories.

In the Austro-Italian theater Rome reports fresh victories for the Italians over the Austrians at various points.

While Petrograd chronicles further advances against the Turks by the Russian right wing Constantinople says that in recent days on the central sector the Russians have suffered tremendous losses south of the Tcherny river and that their attacks have become less violent.

INFANTILE MALADY IN STATE.

Two cases of infantile paralysis have been reported from Greer County. Dr. F. Border, county health officer of Greer county, has placed the cases in quarantine. Greer county is in the extreme southern part of the state. Another case has been reported from Enid and also one from Hobart.

BOYS WHO STOLE FORD  
CAR CAUGHT HERE

OFFERED TO SELL IT FOR \$250;  
SHERWOOD MADE ARREST ON  
SUSPICION

Sherwood grabbed a Ford in transit yesterday.

Two boys, Guy Lovell and Dudley Morris, 14 and 16 years of age respectively, came to town about noon Tuesday and put up at the Guthrie Garage. Soon afterwards young Morris offered to sell the motor for \$250. This aroused the suspicion of Phil Trebend, who notified the sheriff's office. By the time the sheriff had noticed a line on the boys they had moved south, saying they were on their way to Dallas. Sherwood gave chase and landed the boys 12 miles south.

"They put up a pretty stiff bluff and I was not dead sure they were lying to me," said Sherwood, "but I took a chance and brought them back. When I got to Guthrie a telegram was awaiting me of the effect that a Ford had been stolen from Woodland Park, Wichita Monday night presumably by two boys." The boys I grabbed proved to be the eight parties and Wichita drivers will arrive tonight for their prisoners and will drive back the car."

The Ford is a comparatively new machine and the offer to sell it for \$250 was the undoing of the boys.

ASQUITH WILL ASK FOR  
ANOTHER WAR CREDIT

(By Associated Press.)

London, July 19.—Premier Asquith announced today in commons that he would ask another vote of credit next week, probably for three hundred million pounds, making the grand total two billion six hundred and eighty two million pounds.

IMPRISONED MINERS ARE  
RESCUED AFTER 3 DAYS

(By Associated Press.)

Joplin, Mo., July 19.—Four miners imprisoned in the cave at Babcock mine since 2 o'clock Monday afternoon, were rescued alive at 7 o'clock this morning.

SULZER OR HANLEY

The contest for the presidential nomination on the prohibition ticket has narrowed down to former governor William Sulzer of New York and J. Frank Hanley of Indiana.

HIGH HONORS  
TO MISS PAYNE  
IN CONTEST

GUTHRIE GIRL IS VOTED  
FIRST AWARD AT CEN-  
TRAL NORMAL.

PLACE IN KATY  
SUN FOR CITY,  
SAY OFFICIALS

GENERAL MANAGER WIL-  
LIAMS AND PARTY VISIT  
GUTHRIE

ENTERTAINED AT BATH  
HOUSE SUN ROOM

ON GET-AQUAINTED TRIP.  
VISITORS PLEASED WITH  
LOCAL RESOURCES

"We will look into the municipal bath house and mineral water prop-  
erty and arrange plans for proper  
publicity for children as a health re-  
sult," said General Manager W. E.  
Williams of the Missouri-Kansas &  
Texas Railway, at a meeting of high  
officials of the Katy road in the sun  
room of the Bath house Wednesday  
afternoon. "You can rest assured  
that the Katy has the interests of  
child of all towns which it touches  
and if the Hercules waters do the  
work claimed for them, there is no  
reason why Guthrie should not be on  
the Katy map and folders in box car  
borders."

"I coincide with all Mr. Williams  
says," said W. S. St. George, general  
passenger agent. An investigation  
may result in the Katy exploiting  
Guthrie as a top-line in the way of  
waters with health properties."

A special train bearing Katy of-  
ficials visited Guthrie today. It was  
a "Get-Acquainted Special." In the  
party were:

W. E. Williams, general manager;  
Z. G. Hawks, special representa-  
tive executive department;

R. W. Hockaday, industrial com-  
missioner;

W. W. Miller, general freight agent;  
L. H. Chilley, general freight and  
ticket agent;

W. S. St. George, general passenger  
agent.

S. H. Charles, superintendent;

H. Blerman, freight claim agent;

M. D. Green, west general attorney;

O. C. Thomas, coal agent.

The party was met at the Katy station  
by members of the Chamber of  
Commerce. They motored to Mineral  
Wells park and then to the sun room  
at the bath house where two score of  
business men were in waiting to greet  
the officials. Owing to the noon hour  
and the intense heat the attendance  
was not as large as it should have  
been, but the Katy officials fraternized  
freely and seemed highly pleased  
with their reception.

General Manager Williams in happy  
vein told of the plans and purposes  
of the Katy and the outlook in its  
territory. W. W. Miller, general freight  
agent spoke briefly on freight matters,  
while general passenger agent St. George re-  
viewed at length the railroad business in general. He  
stated that railroads of the country were

Continued on Page Eight.

CORN CROP IN DANGER.

With temperature at 90 to 100 and  
no wind, the corn crop of Logan has  
held up wonderfully well. One real  
hot wind storm would deduct 10 per  
cent from the present prospect and a  
rain tonight or within 24 hours would  
ensure the greatest crop ever raised  
in the country.

LANDS BIG CONTRACT

W. F. Power, local contractor, was  
awarded a \$20,000 job at Stonyford,  
Mo., today. It is a power contract  
and work will begin August 1st.

MILLIKAN OIL COMPANIES  
SUED FOR MILLIONS

Her address gave a brief review of  
the attractions of Guthrie, the re-  
sources of Logan county and a re-  
sumé of the standing of the schools  
in the county. Her address is as fol-  
lows:

Mr. Chairman, members and facul-  
ty and Fellow Students:

A great many of you will remember  
that last year I told you that Guthrie  
had the only Municipal bath house in  
the world and this afternoon you are  
all invited to take a swim, a plunge  
(Continued on Page Eight).

Offers To Manage  
Railroads for Soldiers

PENNY POST IS  
DREAM THAT MAY  
BE REALIZED

"BILL" TILGHMAN, NOTED  
PEACE OFFICER, HERE

WILL LECTURE AT HIGHLAND TO-  
NIGHT IN CONNECTION WITH  
PICTURE

Mr. Tilghman probably the best  
known peace officer in Oklahoma,  
whose career in the early days of the  
state prior to standard roads like  
it is today, is in Guthrie today. To  
night he will lecture at the Highland  
Hotel in connection with the picture  
showing of the shooting officer.

The picture is a true historical repro-  
duction of the pioneer days of Okla-  
homa and shows many interesting  
scenes in which Indians such as  
Red Wolf, Black Elk, Medicine Man  
and others were active actors.

The picture is very good and is  
considered one of the very best ever  
thrown on the screen. It is by New  
York artist Charles M. Wood.

It is a wonderful and a striking  
picture and well worth the price of  
any one to witness. The usual prices  
prevail.

VIRUS OF LUCK  
INJECTED INTO  
WARRING FLYERS

SERGEANTS OF FRENCH  
ARMY FLYING CORPS IN  
NEW RECORD

IN COLLISION AT  
2,000 YARDS, LIVE

FLOTSAM AND JETSAM OF  
WAR ALONG COAST AT  
DIEPPE

(By Associated Press)

Paris, July 19.—Sergeants M. — and W. — of the French Flying Corps established a new record; four machines collided at a height of 2,000 yards above the suburb of Pau-  
lin, became locked together with the  
crash and landed in a tree with part  
of the wreckage resting on the root  
of a horse and the rest upon a net  
of telegraph wires, while both  
men escaped without a scratch.

Neither of the horses of this adven-  
ture were experienced aviators,  
which probably explains the collision,  
but now they claim to be "accident-  
ed" and demand the privilege of go-  
ing to the front.

"Accident" in aviation parlance  
means that the pilot has had his  
accident and has come out of it  
without any serious injury. All  
of the men filled with luck. Avia-  
tion accidents are so seldom any-  
thing else than fatal.

A man who has been "accidented"  
in aviation is called in French a  
"vivant," a "lucky dog," he may  
or may not be an experienced aviator  
with a tempestuous mind; with ordinary  
caution he need fear no disaster.

The beginners, such as were Har-  
rison, M. — and W. — in the race-  
course in the great event, were im-  
matured with the virus of luck, they  
are considered as full fledged flyers.

FLOTSM AND JETSAM OF WAR.

Paris, July 19.—Flossam and Jets  
on coast in equinoctial tides and  
are sold by auction under maritime  
conditions that date from the time  
of conflict, sold each year the destruc-  
tion of natives in fury of sea. In  
earlier years it is small wreckage  
such as gunnery — minute salvages  
from sailing and fishing vessels such  
as pieces of rigging, fittings, nets,  
tug boats, barrels of oil and gunnery,  
a lot of fuses, with congealed  
oil, etc., and paraffin.

Whether the president will do  
anything more than to  
fulfill his own position in the matter  
concerning to the front was not ap-  
parent Tuesday night. So far as  
we can learn the Democratic  
steering committee contemplates no  
action in the name of the party  
unless Mr. Wilson issues a formal  
statement.

The president has Senator Kuhn  
as his chief legal adviser. Vice President  
Garrett, Senator Martin, Williams  
and Green of the Democratic  
steering committee and Senators  
Kearns and Hodges, Senators Martin  
and Kearns are among  
those inclined to favor postponement  
of action on the bill.

STATE TROOPS  
START FOR THE  
BORDER TODAY

AFTER MANY DELAYS OKLA-  
HOMA GUARD ENROUTE  
FOR LEAVENWORTH

COOLER WEARHEAT THURSDAY

This morning started out cool  
to start with the measure requiring  
of 14 to 15 inches a new fire  
for the early morning heat.

Belief is in sight, however. The  
morning mail today promises cooler  
weather for tonight and showers for  
tomorrow.

MRS. LATTA STRICKEN

Mr. Mrs. Latta of Klamath, Ore.  
who has been the guest of the  
Oklahoma State family, was stricken  
with paralysis yesterday and is in a  
critical condition. This is the third  
stroke of the year following

stroke in the family.

When I step off at the  
end. —

(By Associated Press)

New Orleans, La., July 19.—To-  
night unseasonably cool and cooler. Thurs-  
day partly cloudy.

THE WEATHER

THE CHEERFUL CHERUB

To walk through life  
undivided  
By whatever unkind gods send  
And keep my eyes fixed  
upward

When I step off at the  
end. —

(By Associated Press)

New Orleans, La., July 19.—To-  
night unseasonably cool and cooler. Thurs-  
day partly cloudy.
